Senior Technical Project Manager | SaaS, AI & Digital Transformation

PMP®-certified Project Manager with 6 years in **AI, SaaS & Web3** delivery. Expert in Agile execution, stakeholder management, and end-to-end delivery. Now based in **Riyadh**, driving **digital transformation projects for global and regional clients** through structured, high-impact execution.

WORK EXPERIENCE

Sr. Project Manager   Remote
TheHexatown - 6 Pack Macros   03/2025 - Present

- Lead the end-to-end delivery of **6 Pack Macros**, a SaaS-based fitness and nutrition platform, overseeing scope, schedule, and execution across cross-functional teams.
- Managed a full **UI/UX revamp and feature rollout**, improving system performance and increasing **monthly sales by 45%** and **subscription renewals by 25%**.
- Directed Agile sprint planning and backlog refinement, maintaining delivery predictability and **cutting release cycles by 35%**.
- Coordinated engineering, design, and QA teams to ensure timely deployments, achieving a **98% on-time release rate**.
- Established **risk management and change control processes**, reducing post-release incidents by **15%** and ensuring continuous improvement across teams.

Sr. Project Manager   Lahore, Pakistan
TheHexatown   02/2024 - 02/2025

- Directed multiple **AI, SaaS, and blockchain-based projects**, ensuring delivery within scope, budget, and quality parameters across distributed teams.
- Led the execution of a **confidential Web3.0 infrastructure project (NDA)**, coordinating development, audits, and integrations to achieve **100% security compliance** and restore client trust.
- Introduced **Agile project delivery frameworks** and standardized sprint cadences, cutting average project turnaround time by **40%** and improving visibility for leadership.
- Established a **project documentation and knowledge management system**, reducing onboarding and training time for new hires by **30%**.
- Acted as the bridge between clients, developers, and external auditors — ensuring transparency, milestone tracking, and timely escalation of delivery risks.
- Drove internal process improvements, enabling TheHexatown to scale from ad-hoc delivery to a **structured, PMO-style model** across multiple product lines.

Project Manager   Peshawar, Pakistan
Haztech PVT Ltd   03/2023 - 12/2023

- Managed the end-to-end delivery of multiple **mobile and SaaS projects**, overseeing planning, execution, and stakeholder communication to ensure timely delivery.
- Streamlined workflows and removed bottlenecks, improving project completion times by **15%** through data-backed process enhancements.
- Coordinated **A/B testing and analytics initiatives** across development and marketing teams, enabling data-informed feature rollouts that enhanced client satisfaction.
- Ensured alignment between technical teams and stakeholders, maintaining a **95% on-time delivery rate** across all active projects.
- Facilitated **Agile ceremonies** (sprint planning, stand-ups, retrospectives) to foster transparency, accountability, and consistent team velocity.

- Supported senior leadership with reporting and performance metrics to guide **strategic planning and project forecasting**.

Project Manager   **Peshawar, Pakistan**
Last Wave Technology   **11/2019 - 02/2023**

- Managed end-to-end delivery of multiple **SaaS and web-based projects**, ensuring alignment with client requirements, budgets, and technical constraints.
- Planned and coordinated project lifecycles — from initiation through release — improving **delivery timelines by 20%** and maintaining consistent client satisfaction.
- Developed **comprehensive project documentation and change control systems**, increasing efficiency and clarity across development teams by **25%**.
- Collaborated with engineering leads to optimize development workflows, reduce rework, and maintain quality standards across concurrent projects.
- Introduced **structured reporting and tracking frameworks**, giving leadership visibility into progress, costs, and risks across the portfolio.
- Contributed to the establishment of **standardized PM processes**, supporting the company's transition to Agile and scalable project management practices.
